Pairing Bluetooth Speaker

1. Push the power switch to turn on the speaker. The speaker is defaulted in Bluetooth Mode, and blue LED starts flashing quickly.
2. Turn on your Bluetooth device, search “DS-1362” in your Bluetooth searching list, then pair your Bluetooth device with the speaker. (If ask for password, please enter “0000”).
3. After pairing successfully, the blue LED light flash slowly.

Both the speaker and your Bluetooth device will store the device name. Next time, you typically no need to repeat this process.

Playing Audio Wirelessly

1. Follow the instruction of Pairing Bluetooth Device
2. Push the button  on the speaker up or down to adjust the volume ; or native controls on the Bluetooth device.
3. Press Pause button  on the speaker to Play/Pause the tune or just control the tune by clicking Play/Pause on your Bluetooth device.
4. Push button  to left/right to skip Prev / Next tune or just control the tune by clicking Previous/next on your Bluetooth device.
5. If there is a incoming call on your phone, press  to pick up or hang up call, long press to reject the call.
6. Long press the button to disconnect the Bluetooth

Using the 3.5mm Audio Input

1. Plug one end of a 3.5mm Audio cable into the unit. The mode indicator light will display a red light.
2. Plug the other end of the 3.5mm Audio cable into other audio devices.

3. Turn on the speaker, it will play music from the audio device.
4. If you want to Play/pause the tune,or change Previous/Next tune just control the native buttons on your audio device.

This product is not a toy.

FCC Disclaimer:

This device Complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more

- of the following measures:
- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or on experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RS5 standard(s). Operation is subject to the following two conditions; (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.
